Notice of Listing to the First Section of the Tokyo Stock Exchange

Today, our company transferred the listing market to the First Section of the Tokyo Stock Exchange from the Mothers Section of the Tokyo Stock Exchange.

We would like to express our sincere gratitude and thank our stakeholders for their support.

In 1995, we became the first company in the industry to commercialize repair services which repair scratches and defects in the interior of buildings without replacing the parts; and we have worked to upgrade repair technologies and train engineers. With more than 20 years of efforts, repair services, which were unusual at the time of the Company's founding, are now recognized as an indispensable service for home builders, construction materials manufacturers, and other members of the housing industry.

Currently, we have a nationwide network and more than 1 thousand highly trained engineers. We are expanding our activities to architectural services for housing environments, such as regular after-sales inspections, and construction services for commercial environments, such as interior finish work for hotels and stores and assembly services for furniture.

Going forward, with the slogan "CANDEAL in all buildings", we will deepen our collaboration with IT companies and other companies that are promoting new approaches, including those in other industries, and aim to offer our Group's services into all buildings.

With the transfer to the First Section of the Tokyo Stock Exchange, we will strive to expand our business and increase our corporate value while remaining aware of our social responsibilities.

We would like express our sincere gratitude and look forward to your continued support and encouragement.
